INDEX:

A.

Aerostation, 1
Aurora Borealis, 8
Axle Railroad, 100
Analysis of Raw Silk, 166
Agricultural use of Lime, 249
Arsenic, 356
American Institute, Fair of 289

B.

Bronze Anaysis of, 14
———Sheathing Ships with, —
Burlington Weeding Hoe, 64
Beet-root Sugar, letter by Isnard, 96
Bridge, Suspension over the Niagara, 101
Book-binders tools, new mode of heating 125
Busts, 174
British Museum, 209
Bacon's Manuscripts, 232
British Scientific Association, 263

C.

Chemistry applied to the Useful Arts, by Prof. J. Renwick, 1, 1, 145, 243
Charcoal, Manufacture of 3
do. do. 1
Capilliary tubes in Metal, 86
Condensing Locomotive, 107
Cochrans' Patent Fire-arms, 110
Coke, Manufacture of 145
Charcoal, animal 148
Chinese Manufactures, 171
——— Duck, 172
——— Art of Computation, —
China deficient in Timber, 173
Corinthian Order, 193
Composite Order, 201
Cast Iron Beams, Report on by Professor Cram, 219
Carbonic Acid, Liquid properties of 227
——— Solidification of, 228
Cold produced by Sulphr of Soda and Muriatic Acid, Rationale of 230
Cement, Hydraulic 246
———, Roman 249
Copper in Virginia, 251
Chimney hood and Ash Pan for Locomotives, Curtis's 252
Clifton Suspenson Bridge, 263
Coal, Products of Distillation, 284
Clark and Boynton's Stone-Cutting Machine, 311
Cochran's Improvement in Fire-arms, 317

D.

Dry Rot, 13
Doric Portico, 69
Danfoth or Cap Spinner, 86
Dyeing, 169
Dipping Needle Deflector, Fox's 226
Door, Orders of 257
Durability and Preservation of Timber, 282
Distillation of Coal, products of 284

E.

Electrical shock from sheet of Paper, 15
Experiments on Sand in Tubes, 113, 182
Ellsworth's letter respecting Patents, 175
Eclipse Solar Reduction of Observations 216
——————— of 1836, 217
Electrical relation of metals, 229
Electricity, effects on Vegetable —

F.

Friction of Engines, 17
Five Orders of Architecture by Nicholson, 6, 6, 129, 193, 257
Fire Ladders, Portable 87
Fire-arms, Cochran's Patent 160
Franklin Institute Committee Report, on Holcomb's Telescope, 218
Franklin Institute Committee of Report on Garrett & Eastwick's Locomotive, 223
Franklin Institute Committee of Report on Raub's Steam Gauge, 224
Franklin Institute Committee of Report on Prutzman's Lever Lock and Key, 225
Foreign Intelligence, 270
Fires at St. Petersburgh, 288
Fair of American Institute, 289

G.

Grecian Doric, 71
Gas Light, 150
Gas from Rosin, 157
Gamboge, 167
Gothic Pendant, Mathematical form of 168
Gambert, M. Death of 228

H.

Hot air Blast, Report on use of 10

Hoe, Burlington Weeding 64
Hulling Cotton, &c., Ambler's Patent, 83
History of Locomotion, 102
Heating Book-binder's tools, new mode 125
Holcomb's Telescope, Report on 218
Hydraulic Cement, 246
——— Lime, 249

I.

Inclined Planes, &c., Letter on 106
Immersion of sheathing copper in muriatic acid as a test of durability, 108
Ionic Capital, &c., 129
Iron Steamboats, 160
——— Magnetic experiments on 191
Inclined Planes, Plan for ascending 349

J.

Jarrool Indian Timber, 215
Jarvis' Address on birthday of Linnæus, 233

L.

Locomotive, New 16
——— Friction of 17
——— on Inclined Planes, 62
——— Booth's Patent 83
Locomotion, Short History of 102
Locomotive Engine, Letter on 106
——— Nickoll's condensing 107
Lampblack, 148
Locomotives, Power of on Inclined Planes, 214
——— Garrett & Eastwick's Report on 223
Lever Lock and Key, Prutzman's Report on 225
Light, Absorption of by Nitrous acid Gas, 226
London and Birmingham Railway, 242
Lime, Quick-preparation of 243
—— Use in Agriculture, 249
Light Houses, Metallic 253
——— Substitute for on the Black Sea, 283

M.

Manufacture of Charcoal, 3
Morticing Machines, 7
Mill, Curious 16
Meteorological Record, 16, 128, 192
Motion of Locomotive Engine, Theory of 31
Metals Drawing, Rolling, &c., 12
Medals, Casts from 14
Manufacture of Salid Oil, in U. States, 80
——— Coke, 145
——— of Oil Gas, 155
——— of ornamental Slate, 174
Magnetic experiments on Iron vessels, 191
Metals, Electrical relation of 229
Manuscripts of Bacon, 232
Mortar, preparation and uses of 245
Metallic Light Houses, 253
Meteors of 1836, 281
Mechanic Arts, 287
Mowing Machine, Wilson's 301

N.

Nicholson's Five Orders of Architecture, 65 129, 193, 257
Nitrous acid Gas, Absorption of Light by 226

O.

Olmstead's Stove, 76
Oil Salid in United States, 80
Oil Gas, Manufacture of 155
Otaphone, Webster's 230

P.

Pambour on Locomotion, 16, 16 cuts 221
Printer's Ink, &c., Bird's Patent, 82
Patent Office, Information respecting 118
Printing Press Rotary, Hills patent 173
Patents, Ellsworth's Letter respecting 175
Preparation of Quick-Lime, 244
——— And uses of Mortar, 243
Puzzolana, 247
Plantou's Railroad Wheel, 279
Power Loom, Lapham's Improved 316

PATENTS.

Olmstead's Stove, 76
Parkhurst's Wool-Carding Machine, 81
Gay's Improvement in rearing Silk worms, 81
Bird's method of making Printers Ink, &c. 82
Ambler's Machine for Hulling Cotton, 83
Booth's Improvement in Locomotives, 83
Porter's apparatus for raising Vessels, 85
Hewitt's Soap from mica, clay, &c. 126
Leman's for making Soap, 127
Hill's Rotary Printing Press, 173

Y.

Yates, John B. Will of 111

R.

Renwick, Prof. on Chemistry, applied to the Useful Arts, 1, 1, 145, 243
Peport on use of Hot air Blast, 10
Rural Scenery, 14
Railroad from Morristown to Carpenter's Point, 63
Roman Ionic, 73
Raising Vessels, Porter's Patent, 85
Railroad Axle, 100
Report on Holcomb's Telescope 218
——— on Cast Iron Beams by Professor Cram, 219
——— on Garrett & Eastwick's Locomotive, 223
——— on Raub's Steam Gauge, 224
——— on Prutzman's Lever Lock and Key, 225

Report of London and Birmingham railway, 242
Railway Transit, 255
Railroad Wheel, Plantou's 279
Railway Transit, 280
Railroad and Inclined Planes, 309

S.

Spirit Lamp, New 14
Smelting Iron, 75
Stoves for Anthracite Coal, Olmstead's 76
Silk worms, Rearing Gay's Patent 81
Spinner, Danfoth or Cap 86
Sugar from Beet-root, 96
Suspension Bridge over the Niagara, 101
Steam Conveyance, &c., 108
Sheathing, Copper test of durability, —
Sand, resistance to Motion in Tubes, 113,182
Soap, Hewitt's Patent 126
—— Leman's Patent 127
Steamboats, Iron 160
Smith on Order of Creation, 161
Silk Raw, Analysis of 166
Statue of Napoleon, 168
Screw-drivers, Short and Long 174
Slate, Ornamental 174
Solar Eclipse, Reduction of Observations, 216
———— of 1836, 217
Steam Gauge, Raub's Report on 224
Steam Carriage Bill, 232
Strong Prof. Mathematical Paper, 241
Stove, Arnott's 288
Stone-Cutting Machine, Clark & Boynton. 311

T.

Turning, 15
Tides, Machine for Registering variations of 16
Temple of Theseus, 67
Tubes Capilliary in Metal, 86
Tallmadge's Letters from Europe, 88
Trade between America and India, 98
Troughton, Edward 112
Temple at Athens, Ionic 137
Tarras, 249
Timber, durability and preservation of 282
Telegraph, 288
Thrashing Machine, Warren's 316

V.

Vision, Fact in Theory of 226

W.

Water, uses and purification of 2
Winds, Machine for Registering variations of 16
Wool-Carding Machine, 81
Water of Elton, Dead and Caspian Seas, 229
Webster's Otaphone, 230
Waters, Force of 239
Wilson's Mowing Machine, 310

Z.

Zinc, 36
